

CYBER SECURITY AND BUILDING 5G NETWORKS IN EUROPE

Hotel Grandior, Na Poříčí 1052/42, PRAGUE/ 18 September 2019

ABOUT THE EVENT

5G, fully 5th generation of wireless networks, will bring new horizons in areas such as internet of things and autonomous cars, virtual reality, holographic calls, etc. New possibilities also bring new threats, as our societies and economies are getting more dependent on technologies. It is more than important, that there should be created effective rules and legislation and the security aspect should not stay one step behind the speed of development of new technologies.

EVENT SCHEDULE

17:00 – 19:00 DEBATE

Jakub Votava, Director, Network Architecture and Development, O2

Martin Hála, Orientalist and Sinologist, Director of AcaMedia z.ú., Project Synopsis
